

FROST presents its next trio of talks in 2012

FROST held our first programme of 3 talks in 2010, and everyone who attended found them both informative and extremely enjoyable.

We will be repeating this trio of talks in early 2012 with an exciting new programme, as follows:

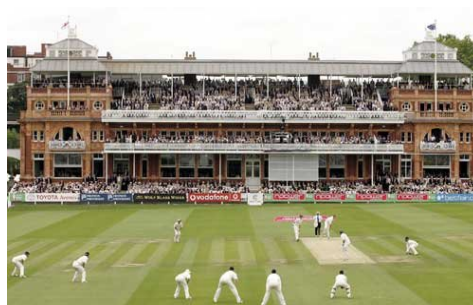

On **Friday 27th January**, **John Hamer** will be talking about "**The Magic of Bees-Marvel of Nature**". John is an acknowledged expert apiarist with decades of experience and a warm and engaging speaker and teacher. A number of East Clandon residents (now bee keepers) have attended his courses and can attest to the captivating nature of his talks.

On **Friday 17th February**, **Ian Taylor MP** will talk to "**My colleagues wanted to send me into outer space....the trials and tribulations of an MP interested in Science.**"

Ian, MP for Esher (1987-1997) and Esher and Walton (1997- 2010) takes a look back at life as an MP (and Minister) for 23 years and his role in promoting interest in science, space - and the Higgs Boson"

On **Friday 23rd March**, **Christopher Martin-Jenkins** will talk about "**A Life in Cricket and Journalism**". Christopher is well known for his many achievements in both of these areas and is also a past resident of East Clandon. He is a renowned after dinner speaker.

All the talks will be held in the Village Hall at 7.30 pm for 8 pm. Nibbles and wine will be available.

Tickets can be obtained from Bug Robertson on 01483 223751.

Prices will be £6 for individual talks or £15 for all 3. Book early to avoid disappointment-last year we were sold out and numbers are limited.
